

Juvo Attendant Propelled Shower Commode with Sliding Platform

Product Code: 19JASP

The ultimate in strength, quality and stability this Juvo mobile shower chair is ideal for the smaller user.

The ultimate in strength, quality and stability this Juvo Attendent Propelled Shower Chair is ideal for the Petite client! The wheelbase design of a sliding footplate prevents forward tipping and has proven to be an effective solution in all areas from home to aged care to hospital.

Product Features:

- **Quality stainless steel frame for longevity in a demanding environment** - This product features a durable stainless steel frame that has been specifically designed to withstand the rigours of demanding environments. The use of high-quality stainless steel ensures resistance to wear, corrosion, and the general effects of daily use, making it an ideal choice for long-term reliability in care or medical settings.
- **Armrests can be flipped so that they are positioned in front of the occupant to reduce the risk of slipping forward** - The armrests on this product are designed to provide enhanced safety and adaptability. With a simple flipping mechanism, the armrests can be moved to the front of the occupant. This innovative feature helps minimise the risk of the user slipping forward, adding an extra layer of security during use.
- **Smooth, slatted backrest design to facilitate easy cleaning** - The backrest incorporates a smooth, slatted design that is both functional and hygienic. This design allows for effortless cleaning, ensuring that the product can be maintained to high cleanliness standards with minimal effort. Its practicality makes it particularly well-suited to environments where hygiene is a top priority.
- **A weight-bearing, generous-sized sliding stainless steel footplate** - The footplate is crafted from robust stainless steel and is generously sized to provide ample support and comfort for the user. Its weight-bearing construction ensures stability and durability, while the sliding feature adds convenience for both the user and caregiver, allowing for easy positioning as required.
