Hospitals

Highest
Safety

The Staebel Deluxe Alloy Ward Wheelchair is purpose-built for patient transport within hospital and acute care environments, combining lightweight manoeuvrability with practical clinical features. Its lightweight aluminium frame and 51cm seat width provide strength and durability, while removable flip-back, height-adjustable armrests with PU armrest pads and swingaway leg rests with durable aluminium footplates make patient transfers easier. A fold-down backrest allows for convenient storage and transport, while padded nylon upholstery enhances patient comfort. The wheelchair also features 12" quick-release rear wheels with urethane tyres for smooth manoeuvrability and simplified maintenance, and offers a safe working load of 150kg.

Designed specifically for busy ward environments, the Staebel Deluxe Alloy Ward Wheelchair comes complete with a range of integrated accessories that support safer and more efficient patient care during transport, including:

- **IV Pole** – Enables patients to remain connected to intravenous therapy during transport.
- **Oxygen Bottle Carrier –** Securely holds an oxygen cylinder for patients requiring respiratory support.
- **Anti-Theft Bar –** Assists with securing the wheelchair when stored or unattended.
- **Anti-Tip Bars** – Improve rear stability and help reduce the risk of tipping during use.
