

# Start M2S Lightweight Wheelchair

Product Code: 480F74=30M2S

A lightweight yet durable wheelchair designed for everyday use in all healthcare environments

We are all familiar with standard lightweight wheelchairs from our everyday lives. This type of wheelchair is available for use in hospitals, airports, retirement homes and zoos, for example. They are comparatively inexpensive and are therefore primarily intended for temporary use by a number of different users. In cases of limited mobility, they can help users to regain a certain degree of independence. This type of wheelchair is less suitable for long-term use or for self-propulsion. The Start models fit precisely into this category and support users worldwide.
